

## DEFEAT OF THE AUSTRIANS ON PLAVE COMPLETE

### Enemy Losses Enormous; 45,000 Men in Prisoners Alone

The defeat of the Austrians on the western bank of the Plave river is complete. Admission is made by the Austrian war office that the troops of Emperor Charles have been forced to evacuate the Montello plateau over which they had hoped to press their way and gain the Venetian plains, and "some sectors" of the positions they attained last week on the bank of the river between the plateau and the point where the stream empties into the Adriatic.

Bad weather and the rising of the Plave under the heavy rains are assigned as the reasons for the withdrawal of the Austrians. But the Rome war office asserts that it was the impetuous tactics of the Italians that brought about the failure of the operation which was started with the intention of crushing the army of General Diaz and forcing the Austrians, like the Russians, to accept a Teutonic allied peace.

All along the river the Italians pressed back the invaders of their territory until only small bits remain on the western bank and across the stream King Victor Emmanuel's men are keeping them on the heels of the retreating enemy who is fleeing in disorder. Again the cavalry has been thrown into the fighting and is severely harassing the enemy while machine guns from the ground and from aircraft, some of the latter operated by American aviators, are working havoc among the fleeing Austrians.

The losses to the enemy are described as enormous, both in men killed, wounded or made prisoners. An official statement from the Italian embassy in Washington asserts that the Austrians have lost 45,000 men in prisoners alone. The Italian war office communication mentions only 4,000 Austrians as having been captured but it is probable that this communication antedated that sent to the embassy and that the captives in the hands of the Italians greatly exceed this figure. The probability that this is true is enhanced by the fact that the river was swollen out of bounds and most of the few bridges that had not been carried away by the freshets had been shot to pieces by the Italian guns compelling the enemy either to surrender or take his chances of being able to swim the turbulent stream.

So hurried was the retrograde movement of the Austrians at one point that they did not take time even to attempt to save their guns and stores, great quantities of which now are in Italian hands. As yet there has been no sign that the enemy purposes again to renew at an early date another offensive in the mountain region, notwithstanding the fact that reports emanating from Switzerland have said that he was bringing up large reinforcements and great quantities of supplies along the front behind the lines from the west border to the upper reaches of the Plave.

That another great offensive is expected—and at any moment—has been known by David Lloyd George, the British premier to the house of commons. Where it is to come was not stated, but it was asserted that on the blow the issue of the campaign might depend. Hopefulness was expressed in the statement that the entente never felt better prepared to meet it.

"Enough Americans have arrived to satisfy the allies and to leapfrog and ultimately defeat our foes," the premier said.

On the front in France and Flanders the operations continue of a minor character. The Italians gain have defeated the Germans near the Marne sector, inflicting heavy casualties on them and taking prisoners.

In the same region the Americans at last have succeeded in clearing the Belleau wood north-west of Chateau Thierry, of the Germans who had been clinging stubbornly to the positions which were regarded as almost impregnable. Prisoners were taken and five machine guns were captured by the Americans. The German official communication asserts that trenches near Badenviller occupied by French and American troops have been entered and heavy losses inflicted on the defenders. There is no confirmation to the report.

**British Advance Line Successful.**

LONDON, June 24.—Field Marshal Haig's report from British headquarters in France tonight says:

"The minor operation carried out last night in the neighborhood of Meteren was completely successful. All our objectives were gained and our line advanced. In addition to the prisoners reported this morning, ten machine guns were taken.

"A few prisoners were captured at night in a successful raid by the French troops in the Locre sector."

## GERMAN U-BOAT SINKS BRITISH TROOP VESSEL

### Transport Bound to U. S. Destroyed; 67 of Crew Missing

(By The Associated Press)

WASHINGTON, June 24.—German submarines operating on this side of the Atlantic ocean have sunk their first troop ship. The navy department announced today that a British transport, name withheld, under charter by the American government and bound to this country had been destroyed June 18, some 700 miles east of the Delaware capes and that 67 members of the crew are missing. There were no troops aboard.

The troop ship apparently was not under convoy. The submarine was not seen until a torpedo had struck the ship. Afterwards the submarine rose to the surface and fired 19 shots into the sinking vessel. When the steamer settled the crew took to the boats, the occupants of four of which, numbering eighty one men have been landed. Three boats are missing and a search is being made for them.

**SHORT LINE RAILROADS ALMOST BANKRUPT**

Iowa Senator Takes Exception To Administration's Attitude Toward the Roads.

Washington, June 24.—Because of the railroad administration's attitude toward the short line railroads of the country, ten thousand miles of lines belonging to smaller companies are now on the verge of bankruptcy and threaten to suspend operations, law permits settlements of compensation claims in the courts and added that he believed it would be far better for the administration to take this course than to drive the roads into bankruptcy.

Senator Cummins of Iowa took exception to what he said, was the administration's attitude toward the roads. He said the law permits settlements of compensation claims in the courts and added that he believed it would be far better for the administration to take this course than to drive the roads into bankruptcy.

## SECOND LOTTERY TO BE HELD THIS WEEK

### Will Determine Order Numbers of the 744,865 Men Enrolled June 5.

Washington, June 24.—A second national lottery to determine the order numbers of the 744,865 men enrolled last June 5 under the selective service law, will be held here this week. The date has not been definitely determined but the drawing probably will be on Thursday or Friday, depending upon the time the final complete reports are received from the district boards.

The procedure to be followed was stated officially today. It will be similar to that of last year when nearly 10,000,000 men were given their respective places in the draft. The same bowl will be used with capsules containing numbers up to the largest number in the country. Last year 18,500 capsules were provided, but the number this year will be much smaller and it is expected that the drawing will be completed much more quickly.

**TREATIES FOR ARMY DRAFT LAW MADE**

Senate Ratifies Treaties Between United States and England.

Washington, June 24.—Treaties between the United States and Great Britain for reciprocal operation of army draft laws to their citizens including Canadians were ratified late today by the senate without a dissenting vote.

British subjects in the United States and Canada, of the age of 16 to 44 years, will be subject to draft under the treaties, but they would be given the option of returning to their own countries for service under their own flag.

It is estimated that some 54,000 American citizens are in the British empire including 36,000 in Canada and 18,000 British subjects in the United States including 60,000 Canadians will be affected by the treaties. A new clause inserted in the treaty provides that citizens of signatory nations exempt from the draft at home, such as the Irish and Australians shall not be subject to draft in the country of their foreign residence.

**WAR APPROPRIATIONS MADE BY CONGRESS**

WASHINGTON, June 24.—Rapid progress in the disposition of war appropriation measures was made today by congress. After five hours debate the house passed without a record vote the \$5,408,000,000 fortifications bill, while the senate approved and sent to conference the \$2,500,000,000 sundry civil measure and then began consideration of the \$12,000,000,000 army appropriation bill.

The fortifications measure, which now goes to the senate, provides funds for carrying out the war departments plan to furnish the American army with artillery equipment which will surpass that of any army in the world. It also carries appropriations for aerial defenses and for ammunition for both home and overseas use.

Nearly two billions of the money carried in the sundry civil bill is for the building of ships to carry troops and supplies to France, the number including 90 new troop ships. Included in the measure also are appropriations for the food and fuel administrations, the committee on public information and other war agencies.

**HELD BY FEDERAL AUTHORITIES.**

Rock Island, Ill., June 24.—Martin Johnson, of Moline, Ill., is being held here by federal authorities as a result of seditious utterances he is alleged to have made when he engaged a government agent in conversation. Ignorant of whom he was talking, Johnson is said to have told the federal officer that he intended to start out on a campaign in opposition to the war. He said it was wrong to kill men and quoted the Bible as showing that the United States and the Allied nations were beasts. He claims he is a Swedish subject and is 39 years old.

**COMMENDED BY DANIELS.**

Washington, June 24.—Chief Gunner's Mate Harry R. Chambers of Atlanta, Ga., commander of the naval armed guard on an American steamer, was today commended by Secretary Daniels for efficient conduct displayed during an engagement between his vessel and an enemy submarine on May 12. After the submarine had unsuccessfully fired four torpedoes, Chambers gun crew opened up and fired four shots at the undersea craft, the fourth shot striking the conning tower as the U-boat submerged.

It was not stated whether the submarine was sunk but the navy department's account of the engagement said "a heavy black smoke rose over the U-boat from the explosion of the shells."

**ONE MILLION TONS SHIPPING**

Washington, June 24.—The first million tons of new ships built on contract for the shipping board probably will be delivered before the end of the month. Last week deliveries totaled five steel vessels, with a deadweight tonnage of 37,830, making the grand total of 1918 production 924,000 deadweight tons.

## BULLETINS

LONDON, June 24.—(British Wireless Service) — Admiral Francisco de Mattos, chief of the Brazilian naval mission in Europe the task of which is to supervise the naval services of Brazil in European waters, in a statement given to the press calls attention to the fact that Brazilian warships are already doing patrol duty by the side of the Americans and British. Brazil also has sent many doctors and aviators to assist the allies.

CHICAGO, June 24.—The 10,000 lake seamen on nearly 400 vessels were reported to have voted in all ports on the great lakes today to strike July 29 unless the employers members of the Lake Carriers' association agreed to the abolishment of discharge books. The sailors members of the Lake Seamen's Union also asked increased wages.

MADRID, June 24.—The captain of the Spanish shipping vessel Joaquina has arrived here. The vessel was held up by a submarine which declined to examine the ship's papers and forced the crew to disembark in the boats. The vessel was sunk and the crew was afloat for five days, being secured off the coast of Africa after having endured terrible privations. The sailing vessel which picked up the crew landed all the men at Gibraltar except the captain.

NEW YORK, June 24.—All claims against railroads, growing out of loss and personal injury will be settled by the government direct with the claimants without resort to the courts, wherever possible. It was announced in instructions to claim agents made here tonight by John Barton Payne, general counsel in the division of law of the national railroad administration. This decision he explained is to discourage expensive litigation.

LONDON, June 24.—Arthur Lynch, Nationalist member of parliament for West Clare has been offered and accepted a commission as colonel in the British army. It is understood he is going to Ireland to assist in the recruiting campaign.

WAYCROSS, Ga., June 24.—Approximately 1,000 employees in the Waycross shops of the Atlantic Coast Line Railway walked out today. The strike is said to have resulted from the re-employment of an assistant foreman suspended some time ago for alleged discrimination against certain employees.

BUENOS AIRES, June 24.—A snowstorm that began Saturday developed into a blizzard through southern South America, doing great damage on land and spreading havoc to shipping along the southern coast. Nothing afloat has yet been able to enter leave Montevideo harbor. An American merchantman anchored here was forced to signal for assistance to prevent being torn from her moorings. Wireless calls were received this morning from several large ships at sea.

ELKHORN, Ill., June 24.—The Furniture Warehousemen's association of Illinois in annual session here today subscribed \$10,000 to the Red Cross, President F. L. Bateman of the association said.

There were 150 members of the association in attendance, most of them from Chicago and Northern Illinois.

WASHINGTON, June 24.—The food administration explained tonight the purpose of the president's executive order permitting the food administration's grain corporatio to pay more than the \$2 a bushel minimum government guarantee for wheat was to enable the corporation to absorb the increased freight rates which become effective tomorrow and thus insure as great a profit to the grower as heretofore.

MIAMI, Fla., June 24.—Lieutenant Duncan C. Cameron of Pittsburgh, Pa., and Sergeant E. L. Anderson of Chicago, both members of the marine corps aviation section were instantly killed at Curtis field near here late today when an airplane in which they were making a practice flight fell about 900 feet.

A broken control rod is believed to have been the cause of the accident.

LONDON, June 24.—The view in military circles tonight is that the defeat of the Austrians is so crushing that it will be impossible for the enemy to resume his offensive on a serious scale for several weeks. One of the causes for the Austrian disaster is said to have been faulty judgment in placing reserves and they failed to be brought up at a critical moment to meet the clever strategy of the Italians.

So strongly is the Plave line now held by the Italians, say military critics that it will be impossible for the disorganized enemy armies to retake it, and there is not the slightest fear they will cross the river.

It is said they staked everything on this offensive and threw all their forces into it. Thirty seven divisions have been identified as being in the battle.

**SEIZE AMMUNITION**

Dublin, June 24.—The police today seized 40,000 rounds of ammunition found in a consignment of grain in the Smithfield market. It is believed the consignment formed a part of a cargo of arms and ammunition landed on the northern coast some time ago.

## AUSTRIAN DEFEAT MAY UPSET WHOLE GERMAN PROGRAM

### Can Not Help But Influence Course of Events in France

WASHINGTON, June 24.—Austrian losses in the retreat across the Plave included an "appalling number" of troops killed, more than 40,000 made prisoners and an enormous amount of war booty said a report from General Diaz, the Italian commander which was cabled from Rome tonight to the Italian embassy.

Officials are reaching the conclusion that the defeat of the Austrians may have been upset in the opinion of some officers here, by the crushing defeat of the Austrians along the Plave river.

Washington beat out the plan of the Austrian disaster given in press accounts from Italy, also the full extent of the Italian success is not yet apparent. It is regarded as certain however that the central powers have been dealt a blow that will further shake the morale of their people and probably will compel the German high command to make a complete readjustment of its plans in France.

Secretary Baker showed the significance attached here to the defeat of the Austrians when he dispatched the following telegram today to the American ambassador at Rome for transmission to the Italian minister of war:

"The people of the United States are watching with enthusiasm and admiration exploits of your brave army."

Mr. Baker's message was sent before the secretary had received additional reports from the Italian front showing the increasing scope of the Austrian disaster. It was prompted by the fact that the enemy was in retreat across the Plave and before the news came that the Italians had smashed up the retreating foe, making the retreat a disorganized rout. There is no doubt here now that the victory will prove to be one of the most decisive in character of the whole war.

Army officers agreed with the view expressed by Mr. Baker that the defeat could not help but influence greatly the course of events in France. It is regarded as vital from the German point of view that the Italian front be made secure before German designs in France can be prosecuted to the fullest development. While there is imminent danger that the Austro-Hungarian government may collapse, Germany cannot devote herself wholly to the task she has undertaken of forcing victory in the west before American manpower can swing the scales finally against her. For this reason both at the war department and diplomatic circles there was much speculation as to the means to support Austria already taken by the German high command. There is little doubt that reports of large German troop movements to Italy are well founded as it is believed the situation must be restored there at all costs unless the whole great offensive in France is to fall of its own weight.

The German problem in rushing troops to Italy is a difficult one. Not only will the withdrawal of men from France weaken the whole offensive effort there at a time when American aid, the arrival of Italian divisions and other measures are beginning to place at General Foch's disposal enough reserves to enable him to strike hard at any weakened point, but the transportation of a sufficient force to offset the Italian victory must necessarily be slow.

Secretary Baker pointed out today that the Italians under General Diaz fresh from successful check of the Austrian advances took quick and full advantage of the rise of the Plave behind the enemy. Indications are that the flower of the Austrian army, employed in forcing the crossing, has been virtually annihilated and the Italians are driving home their victory relentlessly. Every day means further disorganization among the Austrians at the present rate. German reinforcements must arrive quickly and in force, many officers believe unless the Austrian war machine is to be crippled for months to come, at least.

**KILLS FOUR CHILDREN.**

East Liverpool, O., June 24.—Mrs. Joe Simon, a Hungarian woman of Leetonia near here, today killed her four children by slashing their throats with a razor and then attempted suicide by the same means. She is in a hospital at Salem, Ohio and will live.

**ASKS 15,000,000 MARKS**

Amsterdam, June 24.—The Reichstag this week will be asked to pass a new vote of credit of 15,000,000 marks according to the Berliner Tageblatt. This will raise Germany's war debt to 139,000,000 marks.

## ENGINEER EXPECTED TO TELL STORY TODAY

### Pilot of Locomotive Which Snuffed Out 85 Lives in Circus Train Week is Accused of Being Asleep at Throttle.

(By The Associated Press)

Hammond, Ind., June 24.—A triple investigation of the wreck of the Hagenbeck-Wallace circus train Saturday near Gary, Ind., believed to have caused the loss of 85 lives, twenty four persons known to be dead and their bodies identified, the others missing—is going forward and Alonzo Sargent, engineer of the other train, accused of being asleep, is expected to tell his story tomorrow.

A federal, state and county officials are now probing the cause of the tragedy. The circus or what is left of it, is scheduled to resume its exhibitions tomorrow at Beloit, Wis.

The accusations against Sargent, who was driving a troop train of empty coaches, came today from Attorney C. J. McFadden, representing the Michigan Central railroad when the inquest was opened here.

"The engineer going to sleep was the result of some sickness," said Attorney McFadden. "It was unavoidable. There is no doubt he was asleep at the time of the accident and had been asleep for two or three miles."

Engineer Sargent was released on bond today at Kalamazoo, Mich., and it was promised he would appear at the inquest tomorrow.

**Will Show Today.**

Beloit, Wis., June 24.—While time keepers who arrived today are busy checking up the list of dead and missing of Saturday's wreck of the Hagenbeck-Wallace train show this city and the countryside are gay with posters and big sheets announcing that the show will exhibit here tomorrow.

Moreover, it will exhibit, but not just as advertised. The show canvas and seats were not destroyed, as they were in the first section of the train, and other shows have contributed acts which will enable the exhibition to follow its schedule after missing only two dates, that at Hammond, Ind., Saturday and Monroe, Wis., today.

It will be a different show, tho, from that advertised. There is little left of the old personnel. Eddie Jewel, the tiger rider, will not be there to "tame" the dead and skid the borderland of eternity." She is dead at Gary. Nor will Arthur and Joseph Diericks, the strong Swiss, too lightly with great iron bells, nor will "Big Red Barnum" drive his eight horse team behind a thundering chariot.

The clownish mask of Eddie Devore will be worn by another and of the equestriennes and acrobats nearly all will be new to the show.

The menagerie was saved, but Henry Miller, familiar to them as trainer, and many of those who cared for them will be missed.

Other shows have sent peanut vendors, ticket sellers, "barkers" and "bally-hoos," performers and the youth of this section will not be disappointed on the long look-out for circus day.

**LANDIS DEALS HARD BLOW TO I.W.W. DEFENSE**

CHICAGO, June 24.—Federal Judge Landis dealt a hard blow to the defense in the I. W. W. trial today, counsel admitted, when he barred from evidence the eleven volume report of the federal industrial relations committee of which Frank P. Walsh was chairman.

On the commission's report the I. W. W. based its entire course of dealing with the industrial situation according to George F. Vanderveer, chief counsel for the defense.

The attorney in making his opening statement of the case of the defendants who are charged with the murder of a man, denied that the I. W. W. organization had attempted to attack the government. He declared it the purpose of the I. W. W. to destroy the existing industrial system. It was to lay the foundation of his case that the lawyer sought to submit in evidence the "I. W. W. bible" was published in 1915. He declared the Walsh report was the "guiding light" of the I. W. W. members in all that they did.

Judge Landis refused to allow the defense to go into a general inquiry of industrial conditions. The jury was out of the courtroom much of the time while the attorneys argued over the admissibility of evidence. The judge refused even to allow a digest of the Walsh report as prepared by James P. Thompson one of the defendants, to be introduced.

Attorney Vanderveer said that the indictment charges the defendants with conspiracy to start strikes to obstruct the government's war work. He declared it would be necessary to prove the intent of the defendants to interfere with production of copper, lumber and other supplies for government work.

Judge Landis said he had no idea of excluding evidence bearing on actions such as Mr. Vanderveer mentioned, but he made it clear that any board industrial investigation would not be allowed as a part of this case.

**CUDGEL WINS HANDICAP.**

New York, June 24.—The Brooklyn Handicap was won by Cudgel. Time 1:50 1-5. Roamer was second and George Smith third.

More than 800 penalties for  
violation of rules and regulations  
governing licensed dealers in  
foodstuffs have been imposed dur-  
ing the past 10 months by the  
Food Administration. About 150  
companies and individuals have  
been ordered to quit business in  
licensed commodities for a limited  
or unlimited period, and over  
500 have voluntarily made a  
money payment usually to the  
government, or have temporarily  
obtained from doing business  
rather than risk calling down  
more drastic penalties.

President James of the Univer-  
sity of Illinois was born in this  
county and spent his boyhood  
days here so local residents take  
more than local interest in his  
work and words. Recently he  
gave voice to this cheering  
thought on the war situation:  
"The Germans may take Amiens;  
they may take Paris; they may  
take Calais; but the more they  
take the more they will ultimate-  
ly have to disgorge. The further  
they drive forward, the longer  
the way back. The greater  
the temporary victory, the more  
crushing their final defeat."

The local board has not se-  
cured the agricultural workers  
named in the next Morgan coun-  
ty quota, but the temporary de-  
ferment of 120 men is well worth  
while. It means that these men  
can be kept at home for the next  
few weeks to assist in the very  
necessary harvest work. It was  
hardly to be expected that the  
board could secure an affirmative  
answer on the whole number. It  
is fortunate that they laid so  
much stress upon local conditions  
and did their best to have these  
agricultural workers held back.

## THERE'S NOTHING NEW.

The translation of a pre-his-  
toric tablet in the university of  
Pennsylvania museum has re-  
vealed the fact that women had  
the right to vote and held public  
office in Asia Minor more than  
5,000 years ago. Which goes to  
prove that there is nothing new  
under the sun, that we are  
discussing and settling questions  
today that were discussed and set-  
tled many centuries before Christ.  
This reminds us that Plato and  
other Romans who flourished  
centuries ago and were interest-  
ed in agriculture, according to  
ancient history documents, dis-  
cussed the fertility of the soil and  
crop rotation just as our farm ex-  
perts and farm workers are do-  
ing today.

## CHIEF DAVIS RESIGNS.

George P. Davis has resigned  
as chief of police after a long  
encomium. The fact is the  
resignation is a leave of absence  
and if his health improves Chief  
Davis will later on resume his  
work, and his many friends are  
very hopeful that that day will  
not be many months distant. No  
man in Jacksonville is as well  
qualified for the somewhat diffi-  
cult post of chief of police and  
Mr. Davis has given evidence of  
a real anxiety to fill the posi-  
tion with satisfaction to the peo-  
ple. In addition to qualities which  
fit him for the work of law en-  
forcement, Chief Davis is a man  
with a big heart and many are  
the generous and charitable deeds  
that form a part of his record  
during his years of service.

Several houses and several ve-

paint to indicate that the persons  
designated have a "yellow streak"  
and are not living up to war time  
obligations.

should do his duty and it is the  
right of patriotic citizens to see  
that war burdens are equally  
borne. Nevertheless, "painting  
parties" do not always mete out  
justice for they do not always  
understand all the facts and cir-  
cumstances surrounding those  
whose reputations they assail.  
"Painting parties" savor too much  
of mob rule.

## TOO GOOD TO BE TRUE.

Revolt talk in Germany is now  
common, so say some Americans  
who have recently arrived in this  
country and claim to have first  
hand information. That is cheer-  
ing, but it is really altogether too  
good to be true and the great  
bulk of the people will not be  
much influenced by this over-  
optimistic talk. The fact is that  
the government sounded a warn-  
ing recently on over-optimism,  
suggesting that some of the rum-  
ors from the front are really part  
of the German propaganda and  
intended to spread abroad the  
idea of an early end to the war.  
Undoubtedly the recent  
Italian successes have been dis-  
concerting to Germany and help-  
ful in the situation in France, but  
there is no well-sustained reason  
for thinking that the day of peace  
is anywhere near at hand.

## HELPING TO WIN THE WAR.

Rev. John Cavanaugh, C. S. C.,  
president of Notre Dame Uni-  
versity says: "The War Savings  
campaign will be powerful in  
winning this gigantic contest.  
Did you ever see a football game?  
Did you notice how much de-  
pended on the rooting from the  
offenses and defenses?  
Well, the War Savings campaign  
is an ideal form of rooting for  
"our side." It disheartens the en-  
emy as much as it cheers and in-  
vigorates "our side."

"The duty of patriotism lies  
equally on young and old, rich  
and poor, on clergy and laymen.  
There is no reason in creation for  
selecting our soldiers among  
men between 21 and 31, except  
that they are better able to do  
the physical work of the war than  
the rest of us. But the work of  
war must be done in homes,  
in churches, in schools, and in  
factories, as well as upon the  
battle fields of the world. And the  
worst form of slacker  
—because he has not even the  
poor silly reason of ear to ex-  
cuse him—is the slacker who is  
called upon to make only the  
minor sacrifice of money and has  
not the heart to make it."

"We the A. E. F. who wear  
the chevron are wont to specu-  
late from time to time on 'how  
things are going back in the  
States.' We have been away for  
six months or more, and our  
knowledge of conditions is a lit-  
tle vague.

MORE PHYSICIANS  
WILL GO TO WAR.

It is said that Morgan county's  
quota of physicians for war work  
as fixed by the American Medical  
association is 15. This is not an  
allotment that can be enforced by  
law, but since the American Medi-  
cal association assumed the duty  
of furnishing the army with the  
necessary number of medical men  
it seems that the 15 must be sup-  
plied by this county or an unpa-  
ired recruit will be written.  
Nine physicians are already in  
the service. Two more, it is un-  
derstood, have indicated their in-  
tention of entering the service  
this summer. Four others must  
leave the ranks of the Morgan  
county medical fraternity if the  
quota of the county is fully up-  
held.

It is said that today the Uni-  
ted States is the only country in  
the world where the people have  
adequate medical attention be-  
cause of a sufficient number of  
physicians at home. It is said  
further that if an army of 5,000,  
600,000 or in this country that  
it will take 50 per cent of all  
the physicians in the land to ade-  
quately care for the army medical  
department.

Emergency Building  
Cost Huge Sums.

The total cost for National  
Army headquarters was \$140,  
726,473, according to a state-  
ment by the War Department.  
The National Guard camps cost  
\$38,375,272.

Emergency work to provide  
for soldiers in this country and  
to provide buildings for the  
manufacture and storage of ma-  
terial both here and abroad un-  
dertaken by the construction di-  
vision of the Army, which has  
been executed or under way  
and in prospect up to June 1,  
will cost about \$1,170,619,000.  
This total is exclusive of three  
operations costing \$106,000,000,  
under the direct control of the  
Ordnance Department.

Up to June 1 the construction  
division had completed 53 jobs,  
at a total cost of \$202,250,000.  
It has 444 operations under way,  
which when finished will cost  
about \$270,369,000. Preparations  
are being made to start  
work on 117 new operations  
which are expected to cost \$700,  
000,000.

WHAT INDIVIDUAL  
SAVING DOES.

The Railway Conductor, the  
official organ of the Order of  
Railway Conductors, says:  
"Individual saving will curtail  
the production of non-essentials  
and thus help the production of  
war necessities. We can not win  
the war unless we manufacture  
munitions and supplies in tre-  
mendous quantities. As one  
writer has put it, when we are  
threatened with a flood and must  
build a dam to save ourselves  
we must drop other occupations  
for the time being and build the  
dam."

"The world is threatened with  
German atrocities. Therefore we  
must drop many of our usual  
avocations and work on the dam  
of guns, munitions, and military  
supplies of all kinds. We must  
save as individuals and loan our  
money to the Government. We  
must also sell our labor to the  
Government for the production  
of ships and other war neces-  
sities."

"The money we save as indi-  
viduals will not only help to  
furnish the Government with money  
but it will also help to furnish it  
with labor. It therefore becomes  
the patriotic duty of every wage  
earner, as well as every other  
person, to save as individuals  
and thus strengthen the hand  
of the Government and support

those who are offering their lives  
that we may continue to be free"

## CHANGED HABITS.

The tasks I used to like, alas,  
to me no longer make appeal;  
I do not care to mow the grass,  
with seven feet of flashing steel.  
The weeds are growing on my  
lawn, which once was handsome  
as a park; for I begin to talk at  
dawn of war, and keep it up till  
dark. The cockleburrs are grow-  
ing dense where once the scarlet  
rambler grew; decay has mark-  
ed my picket fence, and all the  
other things in view. For I must  
talk with Neighbor Jones—that  
is what my leather lungs are for  
—explaining, in heroic tones,  
what we should do to win the  
war. I do not care to swat the  
flies, altho that sport once hit  
the spot, and early in the day I'd  
rise, with noble zeal, and swat,  
and swat. Each fly in safety now  
may soar, and multiply to beat  
the band; I'm busy at the Blue  
Front store, where allied strategy  
is planned. There I'm consid-  
ered sane and wise, and people  
harken to my rede; I have no  
time to swat the flies, which on  
the nation's substance feed. I  
do not care to boil the germs, al-  
tho our lives may be at stake,  
for I must tell, in ringing terms,  
where Kropkinz Willyum make  
his break. I used to read the  
bulletins the health board issued  
once a week, and I would stir my  
ancient shins, and make my slats  
and hinges creak; none better  
knew to swat the flies, or boil  
the germs, or bat the rats; but  
now I meet with graybeard guys,  
and we all gossip thru our hats.

## "THOSE GLOOMY GUESSES."

"The Stars and Stripes" is the  
official newspaper of the Ameri-  
can Expeditionary Force in  
France, and is published in  
Paris. It is written and publish-  
ed by soldiers for soldiers with  
the approval of General Persh-  
ing. It reflects the views of ac-  
tual fighting men who are in the  
war now, and under the caption  
of "Those Gloomy Guesses" it  
gives some sound suggestions to  
the folks in general and the  
newspapers in particular. The  
editorial says:

"We the A. E. F. who wear  
the chevron are wont to specu-  
late from time to time on 'how  
things are going back in the  
States.' We have been away for  
six months or more, and our  
knowledge of conditions is a lit-  
tle vague.

"We have had to depend on  
personal letters, cable dispatches  
which only 'hit the high spots'  
of the news, and newspapers and  
magazine from four to eight  
weeks old. The newspapers are  
our widest source of information,  
and for the last month or so they  
have been depressing.

"Our air program has failed.  
'Ship building has fallen down.'  
'Our Army hasn't any arms.'  
'Whole war effort of first year  
has been wasted.' We have  
read this and wondered.  
'Whole war effort wasted.'  
Then we reflected that we were  
here, many hundred thousands  
of us, and we figured that this  
had been overlooked by the man  
who classed the effort as wasted.  
We recalled that there seemed to  
be plenty of nine-pound guns to  
tote around and decided that the  
man who said we hadn't any  
arms had misjudged.

The all too evident exagger-  
ation of those two statements en-  
couraged us to believe that there  
was at least the same amount of  
exaggeration in the others. Then  
came word of the tremendous  
success of the third Liberty Loan  
and there wasn't any doubt as to  
'how things are going back in  
the States.'

"A soldier started out of his  
quarters one evening.  
'Where are you going?' asked  
his bunkie.  
'Oh, down to the 'Y' hut to  
read the papers from the States  
and to get some gloom.'

"The newspapers and ma-  
gazines should remember that the  
pessimist on America inevitably  
goes broke."

People who wish to get the of-  
ficial point of view of the boys at  
the front might treat themselves  
to subscriptions for "The Stars  
and Stripes." It can be had for  
six months for \$2. The address  
is—

G. 2, A. E. F., 1 Rue des  
Italiens

FORTY MORE MEN SAVED  
FOR WORK ON FARMS

Adjutant General in Commu-  
nication Late Monday Indicated to  
Local Board Additional Work-  
ers Can Be Temporarily De-  
ferred.

The final effort made to secure  
the temporary deferment of  
Morgan county agricultural  
workers was made Sunday, when  
State Auditor Andrew Russell  
headed a delegation which went  
to Springfield to personally in-  
terview Gov. Lowden and ask his  
good offices. The visit brought  
forth some good results for late  
Monday afternoon Chairman  
Welf of the local board was not-  
ified that forty additional farm  
workers can be temporarily de-  
ferred. This means that the im-  
mediate quota of Morgan county  
has been reduced from 400 to  
280. It is the understanding al-  
tho that the county will be given  
credit for ten men especially in-  
ducted into the service, so that  
not more than 270 men will en-  
train for Camp Zachary Taylor  
next Friday.

The party to Springfield Sun-  
day included Andrew Russell,  
Judge E. P. Brockhouse, Charles  
A. Johnson, Miller Weir, Dr. Carl  
E. Black and W. D. Doying. They  
were taken to Springfield in the  
cars of Mr. Russell and Judge  
Brockhouse. A considerable  
time was spent in the effort to  
locate Adjutant General Dickson  
and it also took some time to get  
in touch with Gov. Lowden. But  
later on the committee had a very  
satisfactory conference with both  
Gov. Lowden and Adjutant Gen-  
eral Dickson.

The exact situation with refer-  
ence to Morgan county's crop  
conditions was laid before them  
and the governor readily prom-  
ised that the adjutant general  
would take the matter up with  
the provost marshal general at  
Washington in a most active way  
Monday. It is of course under-  
stood that the deferred classifi-  
cation of these men is merely a  
temporary matter, the expecta-  
tion being that the men will be  
required to go somewhere be-  
tween four and eight weeks  
hence.

While the local board did not  
secure this temporary release for  
the 200 and more workers as  
desired, the granting of the re-  
quest to defer 120 men for the  
few weeks period will afford a  
vast amount of relief for the  
county. With satisfactory weath-  
er conditions for the next few  
weeks the county will be in such  
shape that the men can be spared  
for army service without any  
consequent loss of crop returns.  
The formal order with refer-  
ence to the additional men has  
not yet been received but it is  
expected today.

Warren Edlin of Flint, Mich.,  
has secured a transfer from the  
board of that place and will mobil-  
ize with the Morgan county  
boys when called for service.

Henry G. Immenga has secured  
special induction orders from  
the surgeon general and will  
leave soon for service in the U.  
S. army general hospital No. 6  
at Ft. McPherson, Ga., for duty  
on the psychiatric ward.

Volley W. Huffman has been  
especially inducted into the ser-  
vice under orders from the chief  
signal officer and will be sent  
to the signal corps training  
camp at Ft. Leavenworth, Kans.

Word received from the dis-  
trict board yesterday places Carl  
Bergschneider of Franklin in  
Class 2-C.

A patriotically inclined Con-  
cord man appeared at the office  
of the board yesterday and stated  
that altho he had been officially  
placed in class 4, that he was  
ready to respond to the country's  
call and leave with the men to  
go to Camp Taylor Friday. His  
offer was at once accepted, and  
upon examination it was found  
that because of a slight defect  
of vision that he could be ac-  
cepted only for limited service.  
The registrant in question was  
Hubert Wester. Mr. Wester is  
therefore forced to await a call  
for limited service men.

## Gave Party for Soldier.

Russel N. Miller who is now  
located at Camp Sherman, Chillicothe,  
Ohio, has been at his home  
in Murrayville for the past few  
days on a brief furlough. Upon  
his arrival Saturday evening he  
was greeted by a large number  
of his friends, all of whom were  
overjoyed at seeing him. A  
pleasant event of his visit was a  
gathering of more than fifty  
relatives and friends at the  
Miller home Sunday. The day  
was spent in an enjoyable man-  
ner and was an occasion long to  
be remembered by all present.

**Birthday Party  
Given for Son.**

Sunday June 23rd, being the  
twelfth birthday of Russell, son  
of Mr. and Mrs. John Baker of  
Yatesville a number of invited  
guests gathered at his home Sat-  
urday, in honor of the day. It  
was a complete surprise to Rus-  
sell, who had just descended  
from the cherry tree he was  
working hard to get started to  
Ashland by 3 o'clock. However,

### Next Two Months Will Be Anxious Ones.

LONDON, June 24.—Premier Lloyd George announced today at the next two months would be anxious ones. There might be great blow coming in the next few hours, he said, and certainly the next few days and on this the issue of the campaign might depend.

The entente allies he added, were better prepared to meet it.

Premier Lloyd George said the Austro-Hungarians were in full retreat. The question now was, added, whether they would be able to effect a retreat. The premier who made his announcement, the house of commons referred to the amazing organization which was bringing American troops to France.

"Enough Americans," he added, "have arrived to satisfy the allies and to disappoint and ultimately defeat our foes."

Mr. Lloyd George emphasized the difficulty and almost impossibility of dealing with Russia, with her many differing and changing governments. He agreed, however, that it would be to the interest of the British people and so just and equitable, if Russia wanted it that Great Britain stand by Russia.

## GERMAN SOLDIERS TIRED OF WAR

COPENHAGEN, June 24.—By The Associated Press.—The Press is tired of the war but the people are not. The middle classes are especially in view of the prevalent unfavorable conditions, said Dr. G. F. N. Nicolai, former professor of psychology at the University of Berlin when questioned today regarding conditions in Germany. Professor Nicolai was one of the men who escaped from Germany last week in airplanes landing in Denmark.

In official circles continued Professor Nicolai, the war is expected to last a long time but among the people the opinion is expressed by many that the present offensive on the western front will be decisive. While the people generally are patient they are anxious for peace, the professor declared.

Food conditions in the empire are bad, Professor Nicolai reports. As against the disappointment from the failure of the Ukraine supplies to come up to expectations, however, some encouragement had been received from the recent rains, which it was hoped would result in the production of better crops at home than last year.

### WHEAT HANDLED IN DIFFERENT BASIS

Washington, June 24.—The 1918 wheat crop, the food administration announced today will be handled on a differential basis effective July 1. One dollar and ten cents maximum differential a barrel between the price of wheat and the finished product will be allowed millers. No speculation in wheat or flour will be permitted.

### GOVERNMENT TAKES OVER THREE CONCERNS

NEW YORK, June 24.—German plots to hide enemy aces under the cloak of American corporations organized or loaned for the purpose were revealed today when A. Mitchell Palmer, alien property custodian, took over three German-owned concerns with an aggregate capitalization of \$3,500,000.

Ported by Mr. Palmer to be on the trial of other highly capitalized firms which have used the means to defeat the law.

The companies in the group taken over today were Dieckerhoff Rafter & Co., importers and manufacturers of notions at 560 Broadway; Rafter, Erbsloh & Co., Cordage manufacturers at the same address with plants in Cuba, and the American Storage Company of Havana.

The scheme according to Mr. Palmer was devised to cover these German holding by apparently selling all the German assets to one or more "American" companies and receiving money for them.

For three years, before which time it was expected the war to be over so the property could be returned to the Germans.

E. C. Dieckerhoff of Dieckerhoff, Rafter & Co., who is said to have lived in this country fifteen years but never has been naturalized has a residence in Greenwich, Conn., a town house in Park avenue and maintains an estate in the Catskills. Others involved are Rudolph Erbsloh of New York, a native of Germany but now a naturalized American, William Erhart of New York, an American citizen who has one sister married to Erbsloh and another sister, Clara Erhart Von Truchsess, who lives in Germany. Still other owners of the concerns taken over who are living in Germany, are Johann Herkmann, Johann C. W. Rump, Millie Rafter, Emma Crone, Tilla Ramm and the heirs of Anna Erbsloh.

## WAR SAVING STAMP CAMPAIGN IS PLANNED

Enthusiastic Meeting Held at the Court House—Audience Subscribed Over \$7,000—Those Canvassing Will be Made—Those Failing to Subscribe Must Show Good Cause.

A goodly number of citizens attended the meeting at the court house last evening called for the purpose of pushing the War Savings stamps campaign. Prof. J. G. Ames presided and called the meeting to order and said in brief:

The impression has gone out thru the land that this is a children's job but it has been demonstrated that with children alone work it will not succeed. Each state and county has been allotted its quota for this year. The quota for our state is \$688,000, or \$20 for each man, woman and child in the county. The Liberty Loan had the banks behind it and it was a different proposition entirely. This work must be done entirely by individual effort. Our county has done very well. It has already subscribed for more than half of its quota but it will not succeed unless a general drive is made.

To that end a proclamation has gone out that this week be especially devoted to the business. In each school house in the county a meeting is to be held. It is easy to arrange this in the county in the 107 rural districts but Jacksonville is a harder proposition.

### Quota for the City.

The city's quota is \$177,000 so it has been decided to have canvassers appointed to go over the city thoroughly and see to it that each person has an opportunity to subscribe. In the county each person over 21 years of age will be summoned to attend the meeting.

Those not attending and those not subscribing will be called on to furnish a good and sufficient reason and those who do not will have their names published and also sent to Washington. If any have already subscribed they may send their pledge cards to the meeting.

It is desired of the canvassers in Jacksonville that they make special effort to get \$100 subscriptions. It is a good investment. No person may take himself more than \$1000 worth but he may take that amount also for his wife and for each of his children if he so desires. At first the stamps cost \$34 for a \$1000 worth maturing in four and a half years when you get \$1000 for the sum invested.

The stamps may also be registered free of charge at the post office and then if lost, destroyed or stolen they will still be good to the original holder.

As so many boys are going to the colors Friday evening several districts are having their meetings some other evening to enable all who wish to come in and see the boy off.

Postmaster Dunlap Speaks. Ralph I. Dunlap, postmaster, told of the efforts of the department to sell stamps and of the excellent work done by the rural carriers whom he praised for their faithfulness in the state this county stands 12th in the list of those subscribing according to population. Brown stands first, Adams second, Pike eighth, Menard has already subscribed the full quota.

It should be understood that each person who is a voter should fill out a card and if already a subscriber to say so stating amount taken and amount to be taken, if any. It is the special desire to have this work all done by Friday evening and the full amount expected of the city subscribed.

### Turner Tells of Work.

Mr. Dunlap called on Mr. Turner of the city carriers, to speak as the gentleman had been especially efficient in selling the stamps. He had called on the ladies and individuals and had done good work. Mr. Turner said in brief: War Savings Stamps are a good thing and need no introduction or commendation by me. They are a safe and sure investment and an educator in thrift.

This work was somewhat thrust on the post office employees who had no banks or others to help them out but they did their best. This is truly a man's job. It is not a gift but an investment. We have given to the Red Cross and other good things till it actually hurts. Every person can surely

buy some if only a few. It has cost us lots of work but it has been pleasant.

A short time since I attended a meeting with some other gentlemen and only fifteen were present. The quota of that district was \$4500 and they bought \$10,000.

By request Rev. W. E. Spoonst spoke. I believe in deeds rather than words. I have done a little in the past. It has been my duty to wait till the others spoke and then gath'r in the mourners and generally have had good success. When you get the attention of people then you get the cash. I feel certain Jacksonville will not be behind. I think it will be a good idea to pass the cards thru this audience and see what can be secured.

### Drum Corps Plays.

While this was being done the Jacksonville Drum Corps who were practicing across the way, entered the room and favored the audience with several numbers and were loudly applauded for their playing finely. This is a patriotic organization gotten together largely by the efforts of Charles DeSilva and consists of W. E. Gilbert and J. D. Groves, flutes; George Rodriguez, bass drum; Charles DeSilva, Dan Vasconcellos, Clarence Large, Abner King, Frank Vieira and Ray Spellman, snare drums. Others will be admitted as they bring instruments and are capable of taking a place in the corps. This will be a permanent organization for the benefit of the city.

### Over \$7,000 Pledged.

When the pledge cards which had been distributed thru the audience were collected and showed that the signers had already bought or agreed to buy \$14,565 of which sum \$7,790 was subscribed at the meeting.

Most of the persons present took pledge cards and it is the desire to call on each wage earner or head of a family and get pledges and information as to sums pledged.

Persons living in town and owning land in the country may credit a part of their subscriptions to the district in which their land is located and a part to the city.

It is needless to urge each one to subscribe as far as possible. We are in the war and it is to us one of actual self preservation. Surely it is better to pay money for stamps than to pay it to the Huns in taxes.

While driving about four miles east of Jacksonville Sunday afternoon a car belonging to W. J. Gray caught fire and was completely destroyed. The car was not covered by insurance as Mr. Gray expected to insure it Monday he not having time Saturday afternoon.

## LEAVE OF ABSENCE GRANTED CHIEF DAVIS

Presented Resignation Monday—Will Resume Duties if Sojourner in South Brings Return of Health—Elections Returns Canvassed.

The resignation of George P. Davis as chief of police was presented to the city council Monday morning and was accepted, the matter being brought to the attention of the council by Commissioner Martin. It was made clear, however, that Chief Davis will later on return to the duties of the position if his intended stay in the south brings the health benefit for which he and his friends hope.

Chief Davis is planning to leave about July 1, for Asheville, North Carolina, to make a stay of some months. He was in that climate several years ago and found it very beneficial.

In the council meeting Mr. Martin spoke of the difficulties of running both police and fire departments because of the scarcity of men occasioned by the fact of the city's inability to pay employees in real money. The commissioner said the public efficiency of the department reduced nearly one half as when the regular number of men was employed. The same was true in the police department, which now consists of a chief and five men. Allowing men in the department one day off means that there are practically four men on the night and day forces, when formerly the number was more than double.

Mr. Cox reported some sewer and street work in progress, his department doing the best work possible under the existing financial stress. Mr. Vasconcellos reported some work done at the north side station.

When Mayor Rodgers was in Chicago recently he visited the engineering firm of Pierce & Greely, who made the report on the local water situation, and found that it will require thirty days for them to have the plans and specifications worked out in detail. Meanwhile some additional information must be furnished the firm. The mayor indicated it was the desire of the council and the citizens on the general committee to push the work as speedily as possible.

The matter of reaching an agreement with property owners will be taken up actively as soon as Dr. Harker returns from a meeting of the Methodist educational board in Ohio.

The returns of the recent bond election were canvassed at the suggestion of City Clerk Pray in district No. 5 it was necessary to have a motion to open the ballot bag as the judges had thru error sealed up the record books. In district No. 13 a mistake of ten was found and this was the only error which appeared, the result of the canvass being practically the same as indicated in the unofficial returns. All other business transacted was of a routine character.

### REV. G. L. SNIVELY IN CITY MONDAY.

Rev. G. L. Snively of Lewistown spent a brief time in Jacksonville Monday on his way home from Holliday, Mo. Rev. Mr. Snively whose Jacksonville friends are many, is engaged in evangelistic work and is frequently called upon for the dedication of churches. That was his mission to Holliday, where he dedicated a new Christian church Sunday. So great are the demands on his time that only one Sunday in the past eight years has he been engaged either in dedicatory or evangelistic work. A minister who assists in the dedication of churches must necessarily be something of a financier as it frequently happens that additional funds must be raised before the dedicatory services can be carried out. Since the first of April Rev. Mr. Snively has raised something more than \$300,000 in payment on new or re-dedicated churches.

#### LETTER FROM A SOLDIER

Mrs. Rose Nunes of 1946 Hackett avenue has received a letter from her son, Manuel Nunes, who is with Co. L, 40th Infantry at Ft. Sheridan. The young man says that he and his comrades are hoping to be on the way to France before very long, as they are taking the men over very rapidly now. The soldier writes that he and his comrades are most happily located and that there certainly is nothing for the relatives at home to worry about. The soldiers, he says, are all going overseas with a smile and a laugh and are very certain that they will be back home before many months have passed.

#### LIEUT. MOSBY MAKING FINE RECORD

Lieut. W. H. Mosby, a nephew of Miss Ethel Mosby of Webster avenue, in a recent letter tells of his transfer from Camp Shelby to a Texas camp. There with other officers he is to assist in the strenuous work of pushing 30,000 recruits into readiness for overseas service in thirty days' time. This is a big task for both the men and the officers. Lieut. Mosby was chosen for this task along with 150 comrades out of a large number of officers. He is scarcely 20 years of age and got into the service after he was taken to the Mexican border with the Iowa militia company of which he is a member. The relatives of the young lieutenant have reason to take pride in his army record.

The superintendent J. E. Underbrink read for the benefit of the school "The Proclamation of President Wilson on the Food Saving Pledge, to Be Given and Practiced by Every Man, Woman and Child."

The children of Litterberry are authorized to sell Thrift Stamps and should be patronized by all children need encouragement as they take up worthy work.

## LAST WET SPOT IN TEXAS TO GO DRY

Austin, Texas, June 24.—The last "wet" spot in Texas will disappear this week with the coming into operation of the statutory statewide prohibition bill enacted by the last legislature. The measure prohibits the manufacture and sale of any intoxicating liquors within the state, "except for medicinal, scientific or mechanical purposes," and then under such stringent restrictions that there will be practically no opportunity that the liquor can be used for any but the purpose specified.

Statewide prohibition in Texas has been the goal sought by the temperance forces for many years. Probably in no other state of the Union has the fight over the liquor question been waged with greater intensity or over a longer period of years than here. Several times in years gone by victory seemed within the grasp of the anti-saloon element, only to be lost through popular vote or act of the legislature. On several occasions the people have voted on the proposal for an amendment to the state constitution prohibiting the liquor traffic. On other occasions it has been sought to make the state "dry" by legislative enactment. For years the question has been a leading issue in state politics. Governors and other state officials, members of the legislature and county officers have won or lost on the saloon issue.

Meanwhile the prohibition sentiment has steadily spread to all parts of the state. Under a local option law county after county and town after town have banished the saloon during the past few years. To such an extent had the "dry" area extended that a year or more ago it became a foregone conclusion that statewide prohibition would soon become an accomplished fact.

As a war measure, approximately 1500 saloons in various parts of the state were obliged to close their doors several weeks ago. This action resulted from the ten-mile zone prohibition law which makes it unlawful to give, sell or have on one's person, intoxicating liquor within ten miles of a military establishment. As Texas today is dotted throughout a large part of its vast extent with army posts, training camps and cantonments, naval stations, aviation schools and other institutions connected with the military service, the ten-mile zone law proved a heavy blow to the liquor traffic. Cities that went "dry" under the provisions of this law included Houston, San Antonio, Fort Worth, Galveston, El Paso, Beaumont, Orange and Wichita Falls.

There remain in the entire state only a few hundred saloons that will be closed tomorrow under the statutory prohibition law. The provisions of this law are considered as stringent as those of any similar legislation enacted in any of the state. The first three sections of the measure and the tenth are as follows:

Section 1. On and after the taking effect of this act, the manufacture, sale, and distribution of liquors and malt liquors and medicated bitters capable of producing intoxication, except for

New York, June 24.—New York defeated Boston in the first game of the four game series in which the Yankees have an opportunity to oust the Red Sox from the leadership. New York won 3 to 2 in a ninth inning rally notwithstanding wretched fielding, as six errors were made behind Morgridge who permitted only three hits and no earned runs.

Peckinpaugh walked in the ninth and advanced to third on Baker's single and scored the tying run on Pratt's sacrifice fly. Pipp then hit into the upper right field stand for what ordinarily would have been a home run, sending Baker in with the winning tally.

## THINGS THAT ENDURE MR. PONTIUS' THEME

Tell Knights of Pythias that Religion Never Changes—Pathway to God is Thru Christ.

Memorial services of the Knights of Pythias at the Christian church Sunday morning were well attended and of deep interest to all. The music throughout was especially fine; several solos being interspersed with the other numbers. The order made a fine appearance as the members marched headed by a brother bearing Old Glory and followed by others bearing the banners of the several lodges represented.

Rev. M. L. Pontius called on Knight Graham who conducted the flag exercises leading in the salute to the flag by the order standing with the words "The flag of our union, may she live forever." Mr. Graham then recited an eloquent tribute to the flag and the beautiful poem, "Your Flag and Mine," after which Mr. Pontius read the 13th chapter of I Corinthians. The wonderful panegyric to love and after further music he welcomed the order remarking that with himself and the official board there were sixteen members of the order.

After the communion services and offering Mr. Pontius called attention to the fact that the church members were glad to have present one of their number, Edwin E. Smith of the Baptist church, "Dakota," and he asked the young man to rise in place in the gallery and then all rose to greet him with applause.

The theme of the discourse was "The Things that Endure." A short outline is given:

**Things that Endure.**  
"This service is in memory of those who have passed away during the last twelve months. To live in the memory of those whom we love is not to die. This is a fine custom to gather thus each year to honor the memory. At a time when kingdoms are falling and thrones tottering it is proper to ask what will endure? Our text says the world passeth away and the lust thereof but he that doeth the will of God abideth forever. John did not refer to our planet for the veil of mystery regarding the solar system had not been drawn aside in his day. Altho the holy writers were often permitted to see much of the beauty of nature none of the new testament authors referred to it. The apostle did not refer to the world; he did not refer to the beauties of nature. He referred to human civilization and culture.  
"Man is greater than the physical world. The earth with all its joys and sorrows; its hopes and fears but the soul will endure."

## WILL GOLDEN GOLDEN WEDDING

Rev. and Mrs. J. W. Muse to Celebrate the Fiftieth Anniversary This Evening.

Rev. and Mrs. J. W. Muse have issued invitations to their Golden Wedding Anniversary celebration at their home on Diamond street this evening.

Mr. Muse was born in slavery in Henry county, Tenn., July 6, 1843 and his owner John A. Muse was also his half brother. His father's name was John and his mother's Martha. He was treated not unkindly and had some privileges. He lived in Henry and another county till he was nineteen years of age and then decided slavery wasn't the best thing in the world and concluded he would be free. He rode away on a mule July fourth, 1862 and kept going till he reached Johnson county in the southern part of this state where he worked for a man named D. B. Moore, a farmer, till the next year when he concluded he would like to fight for his country. Not being very dark he assumed the name of James Davis and enlisted in Co. G, 14th Illinois Cavalry, his color not being suspected. His colonel was named Capron and his regiment was in Gen. Stoneman's command. He served till July 31, 1865 when he was honorably discharged.

"Philanthropy is inherent in the true and better nature of man. Before man could write or know letters one discovered a certain herb had curative properties and he left a record on stone of the fact.  
"Did you ever hear of atheistic philanthropy? Was there ever an agnostic home for the sick, the orphan or the old? Healing the ills of humanity is wiping the tears from the eyes of the widow and orphan; the poor and the afflicted is serving the Master. No too the work of this order is of that kind and while it is not a religious organization strictly speaking it is of the character that must endure."

"Too often we praise wealth but he who amasses wealth for his own purposes alone is poor. Religion gives true glory. You cannot enter the realms of glory unless you conquer yourself. This great war seems to overshadow all that is good but the right will conquer in the end.  
"Were I a watchman on the wall and the traveler would ask me what of the night I would answer, 'The Morning Cometh.'"

In December, 1864, they were ordered to Louisville after Forrest's cavalry but were overpowered by superior numbers and he was taken captive and held fifteen days when he managed to get hold of a rebel uniform and escape. He saw various other adventures until the end of the war.

After his discharge he went to Murphysboro, Tenn., to school and later to Rogers university. He began preaching in 1867 before he quite finished his education.

After being ordained he served at Huntsville, Alabama for a time; then went to Corinth, Mississippi where he had charge of a church and school four years. He was at Macon, Mississippi, six years and then came to Jacksonville in 1882 and served Mt. Emory Baptist church a time and then went to Columbia, Missouri for three years; then to Quincy three years; then to Keokuk, Iowa; then to Ft. Madison, Iowa and next to the Bethesda Baptist church of St. Louis six years; then to Little Rock, Arkansas, when his health failed and he was unable to work any longer in the church. He returned to this city and has since lived on South Diamond street.

June 25, 1868, he was married to Miss Belle Sumler in the southern part of this state and their home has ever been harmonious and happy and they have endeavored to live in the fear of God and rear their children in the ways of righteousness. They have three children living: Horace of Detroit; Zenobia and Fernanda of this city. James D., Nettie, William, Ceola and an infant daughter are dead. Three brothers and one sister also are living.

## UNION CHRISTIAN ENDEAVOR MEETING.

Sunday evening at the central Christian church there was a union Christian Endeavor meeting called to create interest in the state gathering to be held in Springfield July 4th-11th. There were present from C. E. societies in Northminster, State Street and Congregational churches of this city and goodly delegation from the endeavor societies in the Congregational and Christian churches of Waverly.

Addresses were made by various persons and a great deal of enthusiasm for the cause intended was aroused. Rev. M. L. Pontius had a "sharp shooter" contest which was quite a feature. Two members of the junior endeavor of Waverly and two from the same in the Central Christian church were selected and then Mr. Pontius gave out a scripture reference, naming the book, chapter and verse and the side which read it first gained a point. The contest was quite spirited and resulted in fourteen for Waverly and eleven for Jacksonville.

The regular monthly meeting of the Local Board of Underwriters will be held in basement room of Ayers bank building Tuesday morning at 10 o'clock.

Charles E. Reynolds of Waverly was a city caller yesterday.

## POSTAL EMPLOYEES OF COUNTY ORGANIZE

Representatives of Postoffices Throughout County Met Sunday Afternoon to Discuss War Savings Day Plans—Will Follow Plan Outlined By National Committee.

The postal employees of Morgan county held a meeting at the court house Sunday afternoon for the purpose of perfecting an organization to assist the War Savings Committee in having Morgan County meet its full quota by June 28. Nearly all of the postmasters in the county were present, together with nearly all of the postal clerks and rural carriers. The splendid representation of the post offices throughout the county indicated the active interest of these men and forecasted the showing which will be made before the week is finished. The assistance of the men in the postoffice department has been loyal and cheerful and the records already have shown how faithfully they have worked in the disposal of war savings certificates and thrift stamps.

**Plan Explained.**  
Assistant Postmaster Thomas Harber of the Jacksonville office called the assembly to order and stated the purpose. He then asked J. G. Ames county chairman, to explain the plan of work for June 28, national War Savings day, and for the intervening days. This was especially impressed upon all the present that it is very important that the plan as outlined by the national committee shall be carried out most carefully if the government's goal is reached. It was made clear that pledge cards should be made out and all of the work of solicitation carried on in accordance with the government's ideas.

The carriers are expected to get a special aid to the district school boards in securing pledges and doing other preliminary work in preparation for the meeting to be held in every school house in the county at 8 p. m. next Friday. These meetings are for the purpose of completing the pledges as set forth in President Wilson's proclamation. Following Dr. Ames' address remarks were also made by Postmaster R. I. ## RUSSIANS LIVING IN FRANCE ORGANIZE

Form "League of Russians Faithful to Their Country and Its Alliances"—Detached from the "Union of Patriotic Russians."

Paris, June — (Correspondence of the Associated Press)—Twelve of the most prominent Russians who reside in France are the founders and backers of a new organization, the "League of Russians Faithful to Their Country and Its Alliances." The organization is pledged to work for the re-establishment of order, to defend the vital interests of Russia, and the economic regeneration of the country.

Leaders of the organization are such men as M. Efrémov, once chief of the Progressive Party in the Russian Duma and former Minister of Justice of the Provisional government; M. Iswolsky former Minister of State and former Ambassador to France; General Lokhvitsky, former commander of the Russian troops in France and now at the head of the Russian volunteer forces; M. Nelidof, Russian Minister to Belgium at Havre; and M. Stakhovich, former governor of Finland under the Provisional government and later Ambassador to Spain.

They have detached themselves from the "Union of Patriotic Russians" with the following announcement of their aims:  
"The re-establishment, in an indivisible and sovereign Russia, of order and legality on strictly constitutional bases guaranteeing the rights of citizens as well as those of other nationalities on the basis of extensive liberty (local self government).  
"Defense of the vital interests of Russia by the conservation of political, intellectual and economic ties of the strongest sort with the Allied countries, and by the recreation of the military and naval strength of Russia.  
"Regeneration of the economic life of Russia and of the state's credit on the basis of respect for private property, recognition of engagements contracted by Russia, and the free development of the productive forces of the country."

Plans for the Processional Pageant to be held July 4, are maturing rapidly. A meeting of the executive committee was held yesterday and it was announced that all ideas had been worked out and for the most part had been assigned to the various organizations, firms and communities.

Chairman Callihan announced last night that 24 floats for the city and eight for the county had been definitely assigned. There also are more being spoken for and will be assigned in a few days.

Another announcement of interest made by Mr. Callihan was that Miss Grace White of Lafayette, Ind., would arrive in the city today to assist in preparing the floats. Miss White is an expert in pageantry work and will see that each float is as near historically correct as possible.

## CANADIAN PURCHASED HIGH BRED HORSES

H. C. Jewitt of Fredericton, New Brunswick, Canada, spent the week end in the city with his friend Clark Green. Mr. Jewitt is a merchant in his home city and is a lover of fine horses.

It was thru this hobby that he came to know Mr. Green, whom he met while the latter was racing his string of horses. A close friendship sprang up between them which resulted in Mr. Jewitt's visit to Jacksonville.

While here Mr. Jewitt saw Harvest Hope by the Harvester, owned by John Leggett. He was much impressed with the animal and thru Mr. Green, negotiated for its purchase. Harvest Hope is one of the high bred horses of the county and an animal with bright future prospects. Mr. Green also negotiated with Mr. Jewitt for the purchase of Native Worth, owned by Herbert Denham of White Hall. Native Worth, is also a promising horse and has been trained by Mr. Green.

Mr. Jewitt has two sons with the Canadian overseas forces in France. He talked interestingly of the war. He said that people in the United States had not had war brought home to them forcibly as yet.

"In Canada," said Mr. Jewitt, "Men have gone from almost every house in the cities. It is no uncommon thing for one to awaken in the morning and find that one's next door neighbor's son has been killed in France." Mr. Jewitt firmly believes in the ultimate victory of the allies but believes great sacrifices are ahead for them.

## IN SESSION AT ABERDEEN.

Aberdeen, Wash., June 24—Loyalty to the nation, the win-the-war spirit, and ways in which labor can help to win the war, are to be the leading subjects of discussion at the annual convention of the Washington State Federation of Labor, which opens here today and will continue during the greater part of the week. Reports to be presented to the convention show that labor conditions in this state were never in a more satisfactory condition, owing to the increased volume of business in the shipyards, the lumber camps and other industries engaged in war work.
